

SOP: Student Placement Cell Website Registration, Login & Application Tracking

This SOP guides a student through registering on the placement cell website, logging in, completing their profile, applying to opportunities, and tracking application status — all managed from one centralized dashboard.

PART 1: Registration & Login

1. Register a New Account

- On the Student Login page, click **Register here** to open the registration form.

2. Complete the Registration Form & Set Password

- Enter your **Register Number** — Placement ID and Full Name are auto-filled.
- Edit your name if needed to match your legal name.
- Enter your **primary email ID** and **phone number** (keep these accessible at all times).
- Create a **6-character password**, confirm it, then click **Register**.
- Wait for the **Registration Successful** message before attempting to log in.

3. Log In to the Placement Dashboard

- Enter your **Register Number** and password. Optionally select **Keep me logged in**.
- Click **Sign In** to access your dashboard.

PART 2: Dashboard, Profile & Notifications

4. Review the Dashboard

- After login, your dashboard shows a placement overview:
 - **Total Applications** — opportunities already applied to.
 - **Active Drives** — open opportunities currently available.
- Use the dashboard as your central hub to monitor all placement activity.

5. Complete Your Profile to 100%

- Go to **My Profile** and enter your aggregate percentage (all semesters combined).
- Confirm the profile completion bar reaches **100%** — required for applications.
- To update your password: enter current password, new password, confirm, then click **Change Password**.

6. Check the Notifications Tab

- Open **Notifications** regularly for placement cell announcements, deadlines, and updates.
- Review all announcements promptly to avoid missing interview updates or application deadlines.

PART 3: Browsing & Applying to Opportunities

7. View Open Opportunities & Check Eligibility

- Click **View All Opportunities** to see all open drives.
- Each listing shows: Company, Vacancies, Relocation, Stipend/CTC, Offer type, Eligible courses, and Percentage criteria.
- Click **View Job Description** for full role details.
- Status indicators (**Applied**, **Not Eligible**, **Time Remaining**) show whether you can proceed.
- Join the **WhatsApp group** linked to the opportunity when required.

8. Open the Application Form

- Click **Apply Now** on the chosen opportunity. Confirm the form has loaded before entering details.

9. Verify Course & Load Available Roles

- Confirm **Placement ID** and **Full Name** are auto-filled correctly.
- Select your **correct course** — a warning pop-up appears if the wrong course is chosen.
- Enter your percentage, then click **Check Eligibility & Load Roles**.
- Review JD and WhatsApp group info, then select the role you want to apply for.

10. Fill in Personal & Academic Information

- Enter full name, phone number, and email ID.
- Fill in 10th and 12th grade percentages and years of passing.
- Enter UG course, UG percentage/CGPA (aggregate of all semesters), and UG year of passing.

11. Declare Backlogs, PG Details, Accept Declaration & Submit

- If you have active backlogs, check the relevant box. If pursuing a PG, enter details; otherwise skip.
- Read the **Placement Declaration** fully and check **I Agree** only after understanding the terms.
- Upload your resume as a PDF (filename format: *Rollno_CollegeName.pdf*).
- Review all details, then click **Submit Application**. Wait for the success confirmation.

PART 4: Tracking Applications & Logging Out

12. Track Your Applications

- Go to **My Applications** to see all drives you have applied to.
- From here, check application date/time, view final status, download submitted resume, and rejoin WhatsApp group if missed.
- Use the **Progress Tracker** for round-wise updates: aptitude, case study, shortlist, and final placement.

13. Log Out

- Click the **Log Out** button once done. Verify the session has ended and close the browser tab.
- Always log out — especially on shared or public devices — to keep your account secure.

■ Cautionary Notes

- Keep email ID and phone number active at all times — used for all placement communication.
- Do not forget your password; it is required for every login.
- Enter percentage accurately — it directly affects eligibility for opportunities.
- Only apply if you meet the stated criteria; otherwise the system marks you *Not Eligible*.
- Join the WhatsApp group for every drive you apply to — it contains critical updates.
- Wait for **Registration Successful** confirmation before attempting to log in.
- Profile must be 100% complete; incomplete profiles may block visibility or applications.
- Never select the wrong course in the application form — this may prevent submission.
- Fill PG details only if you are currently enrolled in a PG program.
- Upload the correct, latest version of your resume with the required filename format.
- Always log out after use, especially on shared computers.

■ Tips for Efficiency

- Have academic records, contact details, and a ready-to-upload resume before starting any application.
- Save your login credentials securely immediately after registration.
- Check the dashboard and notifications daily to stay current on active drives and deadlines.
- Use **My Applications** to quickly access history, submitted resumes, and status updates.
- Read each job description before applying to avoid submitting unnecessary applications.
- Double-check auto-filled fields (Placement ID, Full Name) before proceeding with any form.
- Use the filename format *Rollno_CollegeName.pdf* for easy resume identification.
